

Yoe FFA Discovery Degree Trip Points 2023-2024

We want all of our FFA members to have a well-rounded FFA experience. To provide this we offer our students several ways for members to step up and expand their leadership experiences. The following point values will be awarded for activities above and beyond the school day. A minimum of 25 points and one point in each of the two categories will be required to obtain the Yoe FFA Discovery Trip. All points will end on May 1st. DAEP placement is automatic loss of trip.

What is the Discovery Degree:

This degree recognizes students enrolled in 7 grade agricultural science classes making strides toward successful involvement in the FFA. Receipt of this degree is not necessary in order to obtain the Greenhand FFA Degree. This degree of active membership is awarded at the chapter level.
